TROUBLE WITH INDIANS.

Chesapeake Indians in Montana on the War Path.

A Dozen Men Reported Killed. Including Five United States Soldiers. The White Settlers Are All Up in Arms.

DENVER, Col., May 31.—A special to the Republican from Helena, Mont., says:

The Chesapeake Indians have gone on the war path, and so far are said to have killed almost a dozen men, including five United States soldiers. The Indians have no reservation of their own, but roam over the southern part of the state, near the Crow Indian reservation.

The white settlers are up in arms and the women and children are being sent into the northern towns for safety. The Chesapeake make the same headquarters.

SOLDIERS AND POSSES

Hastening to the Chesapeake Reservation to Prevent an Outbreak and Make Arrests.

HELENA, Mont., May 31.—Excitement continues on the Chesapeake reservation and in the settlements in the vicinity. Ranchmen on the upper Rosebud have all deserted their homes. Six companies of soldiers from Fort Keogh and Custer are en route to the agency, as is also the sheriff of Custer county, with large numbers of deputies. The sheriff has a warrant for the arrest of Indian Agent Stough, charged with interfering with officers in the discharge of their duties; also for three Indian murderers.

The sheriff will probably arrive at the reservation with his deputies tomorrow and endeavor to arrest the murderers of the sheep herder, while the soldiers and civil officers will be prepared to quell any actual outbreak. Considerable anxiety is manifested. Many are of the opinion, however, that the gravity of the situation has been much exaggerated.

DURANT WILL HANG.

Gov. Daulton Has Finally Refused to Extend Executive Clemency.

SACRAMENTO, Cal., June 1.—Theo. Durant will hang on June 11, one week from next Friday.

Mr. Durant, Sunday evening, telephoned that much to Warden Hale of San Quentin prison, at the same time ordering the death watch placed upon the prisoner.

Immediately after telephoning this message to Warden Hale, the governor was driven in a closed carriage to the depot, where he took the train for San Francisco. Notwithstanding the fact that the governor has made known his decision and that the telephone message asked out, the same mystery is being maintained regarding the statement which the governor has prepared, and this statement will be given out later.

GRAVE DESACRATION.

Second Case Within a Few Months at Jackson, Cal.

JACKSON, Cal., June 1.—Sunday it was notified that the grave of Mrs. F. Rice, who was buried in the public cemetery here last Wednesday, had been disturbed. One of the pallbearers, which had been thrown upon the casket, were found on the surface. The grave was reopened, and the casket, containing the body, was found broken and the cover of the casket had been lifted. The corpse was there, and there was no evidence that the body had been touched. This is the second case of grave desecration here within a few months.

KILLED BY BURGLARS

After a Desperate Fight for His Life—No Clue to the Murderers.

WARREN, O., May 30.—Elijah Hill, a farmer living at Farmington, was murdered last night by burglars. Hill lived with his aged mother. The robbers broke into the house, and after binding and otherwise mistreating the old woman, they went upstairs where Hill slept. They first clubbed Hill over the head and then shot him. There were evidences in the house this morning of a terrible struggle. There is no clue to the murderers.

INSTANTLY KILLED.

Awful Fate of Two Cripple Creek (Col.) Miners.

DENVER, Col., June 1.—A special to the Rocky Mountain News from Cripple Creek, Col., says:

Wm. Carr, aged 33 and Frank Curtis, aged 31, miners in the Norman tunnel, five miles south of this city, were instantly killed by a premature explosion of dynamite. Carr was warning four other miners of the explosive. The bodies were hardly recognizable.

UNEXPECTED SUMMONS.

Dr. Angell May Have to Go to Turkey Sooner Than He Expected.

ANN ARBOR, Mich., May 28.—President Angell has left for Washington in obedience to a telegram received from the state department. The summons was entirely unexpected, and its nature is unknown.

It is rumored that Dr. Angell will be ordered to depart for Turkey sooner than he expected, probably within a few days.

FIFTY-FIFTH CONGRESS.

Special Session.

In the senate, on the 26th, after consideration of other business up to 2 p. m., Senator Aldrich (rep. R. I.), in charge of the tariff bill, made the measure laid before the senate, and made the opening speech in its favor, of an hour and a quarter. He was followed by Mr. Vest (dem. Mo.) in opposition to the bill. Mr. Cannon (rep. Ill.) closed the debate for the day by saying that the protection should be so distributed as to aid the farmers. The house was not in session.

In the senate, on the 26th, a resolution was agreed to authorizing the secretary of the navy to employ any suitable ship in forwarding relief supplies to India. The first vote on the tariff bill was taken after two hours' debate on the issue of a tariff on sugar. The vote was 19 in favor of the tariff and 11 in favor of the free trade. The senate then took up the tariff bill and continued its formal consideration by paragraphs. In the house representative Levin offered a resolution declaring it to be the sense of congress that the bill of the House of Representatives should be reconsidered. The resolution was referred to the committee on contingent expenses. The house was not in session.

In the senate, on the 26th, no business was transacted, immediate adjournment being taken out of respect for Decoration day. In the house, after a 10-minute session, the body adjourned to allow its members to participate in Memorial day exercises.

Hanged Himself.

MILWAUKEE, May 29.—John Mick, of Chicago, aged 70, an inmate of a sanitarium, hanged himself here this morning.

RETURNING PROSPERITY.

Secretary Gage Tells Why It Is Delayed.

WASHINGTON, May 31.—Secretary Gage has returned to the city from Cincinnati, where he was a guest at the banquet given last Friday by the Commercial club of that city to the visiting clubs of Chicago, Boston and St. Louis.

Mr. Gage said to-day that a feeling of impatience seemed to be general among the people at the delay in the passage of a tariff bill. The business of the country was in a condition of prostrating stagnation and although the public realize that the greatest care is necessary in the construction of a bill

SECRETARY GAGE.

of such vast importance, the people were beginning to complain of the time being consumed. What they most wanted was the prompt passage of a tariff bill that would produce sufficient revenues and with that question out of the way the government could take up the question of reform in the currency.

The business men in attendance on the Cincinnati meeting, Mr. Gage thought, were agreed that a currency commission should be authorized and appointed at once with a view to their formulating a plan which could be presented to congress on its reassembling in December. During the recess Mr. Gage was engaged in making arrangements for a tariff bill that would produce sufficient revenues and with that question out of the way the government could take up the question of reform in the currency.

If the commission should fail to agree upon a satisfactory plan, the administration very likely would have a proposition to present to congress. In any event, the people with whom the secretary conversed were agreed that some initiatory action should be taken at once. The business of the country impatiently demanded it, he concluded.

FOUR CHILDREN KILLED.

A Drunken Man Drives a Wagon Load of Little Ones in Front of a Moving Train.

DENVER, Col., May 30.—At 8 o'clock this evening a spring wagon driven by Henry Marsau, a carpenter, and containing eight children ranging in age from three to nine years, was struck by a special train on the Denver & Rio Grande railroad and as a result four of the children are dead and the others are terribly injured, two so badly that they will die.

Marsau, with his three children, had been spending the day at the home of Chris Schenckels, in the southern portion of the city. When ready to start for home he took a load of children, gathered up in the neighborhood, for a short ride.

It is claimed by the police that Marsau was intoxicated and paid no attention to the signals of the engineer, but drove upon the track while the train was in plain sight and but a few feet away. The engine struck the wagon.

THE CABINET A UNIT.

No Disagreement on the Cuban Question—The Tariff Bill.

CINCINNATI, May 31.—Secretary of the Treasury Lyman J. Gage and wife arrived yesterday and will remain until Saturday. Secretary Gage is here with members of the Commercial club of Chicago, on an outing. When asked about the reported differences in the cabinet over the Cuban question, Secretary Gage said: "This is all game, and there is absolutely nothing in it. Such a thing has not even been thought of and there is not the least possibility of a disagreement among the members of the cabinet on this subject."

"What are the prospects for the passage of the tariff bill?" was asked.

"With certain amendments to the pending bill it will pass the senate, and that is about as much as any one can tell about its passage at the present time."

TURKEY'S DEMANDS

Making Friends for Greece Among the Powers.

The retention of Thessaly impossible and limits fixed to the cash indemnity—Russia irritated at Germany's policy—The Sultan Turns to England.

Peace Negotiations Take a Turn More Favorable to Greece.

LONDON, May 28.—The correspondent of the "Times" at Athens says: The dispatches which the government has received from representatives of Greece abroad, all indicate that the peace negotiations have taken a turn more favorable to Greece. Turkey's proposal to occupy Thessaly no longer receives any consideration, owing to England's attitude, while the proposal to abolish the capitulations in the case of Greek subjects in Turkey is rejected, and the suggested extradition treaty is apparently set aside.

The powers have fixed £5,000,000 as the highest limit of indemnity, and will pursue a strategic alteration of the frontier as will not involve the subject of any inhabited district to Turkish rule. Germany's demand for an international control of Greek finances has not been favorably received. The government hopes to raise a fund on the guarantee of England, France and Russia, with interest to pay the indemnity, conceding certain revenues, but not accepting the principal of foreign control.

The Sultan Favors but the Official and Religious World Denounces the Restoration of Thessaly.

LONDON, May 28.—The correspondent of the Standard at Constantinople says: The immediate restoration of Thessaly to Greece, favored by the Sultan, has been rejected by the official and religious world. The Turkish foreign minister has spoken on the subject in a conciliatory tone to the Baron Di Calice, the Austro-Hungarian ambassador, asking only a little delay in order that public excitement may subside.

On the other hand the whole official and religious world, including the Sheikh-ul-Islam denounces the idea of restoration, while every military measure points to retention of Thessaly. Those who had supposed that the Sultan was manufacturing the excitement in order to exact better terms from the powers are beginning to think he has gone too far and lost control of the situation.

Russia does not conceal her extreme irritation at the German policy, which is so openly and persistently directed against Russia that many Turks accuse Germany of deliberately plotting to produce rupture between the two countries.

The Sultan Making Special Efforts to Restore Friendly Relations with England.

DENVER, May 27.—According to a dispatch to the Frankfort Zeitung from Constantinople Count Muraviev, the Russian ambassador here, has said that Turkey must renounce her impossible claim to annex Thessaly. He added that, in his opinion, the claim had only been advanced to prolong the negotiations as a pretext for retaining the war, which he supposed would on no account permit. This statement so impressed the Sultan that he has been making special efforts to restore friendly relations with England, and to this end ordered the whole Turkish embassy to notify the garden party given at the English embassy in honor of the queen's birthday.

ARMS FOR THE CUBANS.

One of the Most Successful Pill-busting Expeditions.

That Has Ever Yet Sailed for Cuba—From a Secret Office, a Number of Men and a Heavy Cargo of Arms and Ammunition Successfully Landed.

WILMINGTON, N. C., May 31.—The Messenger prints a detailed account of the loading of the tug Alexander Jones and her departure with the schooner John D. Long on a Cuban pill-busting expedition. The facts were obtained from a member of the crew of the Alexander Jones, which returned to port several days ago. His story substantially is as follows:

On Thursday night, May 18, the Jones took on a cargo of rifles, shot-guns, rapid-fire guns and ammunition at the wharf of the Wilmington, Newbern & Norfolk railway in the southern limits of the city. Before she had entirely finished her cargo a report was started that officers were approaching and that the revenue cutter Morrill was getting up steam.

Taking alarm at this the Jones pulled out and started down the river at 10:45 p. m., and in a few hours crossed the bar and anchored outside. The schooner John D. Long, having meanwhile been loaded with coal and other material at the Wilmington and Weldon railroad wharf, was shortly afterwards towed out to sea by the tug Jacob Brandon, going past the revenue cutter Colfax. On the schooner were Gen. Nunez and another officer of the Cuban army, a Cuban pilot and Capt. John O'Brien, of the filibustering tug Dauntless.

At the sea buoy they went on board the Jones, anchored near by, and Capt. O'Brien took charge of the expedition. A hawser was made fast from the Jones to the schooner, and early Friday morning the tug steamed to the south with her tow. The Jacob Brandon returned to Southport.

On the way down the coast no port was entered, but off Palm Beach, on the coast of Florida, 73 Cubans were taken on board. The Jones then towed the schooner to Bahamas, and in the vicinity anchored in the open sea on Tuesday, May 18. On Thursday morning, May 20, the filibuster Dauntless hoisted in sight and came alongside the Jones and the schooner. She coiled from the schooner, took a cargo of arms from the Jones and, with Capt. O'Brien in command, headed for the Cuban coast, about 60 miles away. She left the Jones between eight and nine o'clock Thursday night, made a successful landing in Cuba near Matanzas, and after an absence of 24 hours exactly, returned to the Jones, took another cargo of war material and started for Cuba Friday night. On the last trip Gen. Nunez and the 63 Cubans left the Jones and went on board the Dauntless accompanied by Capt. O'Brien.

When the Dauntless left with her second cargo the Jones coiled from the schooner, towed her off Cape Canaveral, Fla., and turned her loose. She sailed back and got into Southport yesterday morning.

The cargo carried out of here was valued at \$75,000, and is said to be the second largest ever landed in Cuba.

The member of the crew above referred to says there is no truth in the story that the Jones was chased and fired on by a Spanish vessel, and that Jones never saw the smoke of such a vessel while on her trip.
